## Pro Tips

### Maximum performance

FX Design Color is versatile, suitable for use on skin with or without make-up, latex, silicone, PUR- or latex-foams, glatzan, and Syncap. Perfect for special effects and body make-up.

### The system

FX Design Color comes in a sturdy, stackable metal palette with magnetic squares, holding up to 15 squares.

It's customizable and pre-set for convenience. Empty colors are easily replaceable, and the palette stays stable on the make-up area. A viewing window in the lid allows quick color identification without opening. Empty refills provide an easy-to-clean mixing tray, keeping the lid pristine.

### Removal

To remove FX Design Color, moisten a microfiber cloth with hot water, add a small amount of FX Remover, and place it on the skin. After a short exposure, gently wipe off the paint. Wash off the oily residue with a mild lotion to complete the process.

# FX DESIGN COLOR

**Vibrant and high-performing  
alcohol paint for long-lasting  
professional results**

water-proof · smudge-resistant · long-  
lasting · translucent or opaque application

## FX DESIGN COLOR REFILL

FX Design Color Refill - dissolvable with isopropyl alcohol (IPA) like watercolors, offers adjustable opacity with ease. Enjoy the benefits of a waterproof, smudge-resistant formula that won't stain and lasts for hours.

Perfect for both fine, translucent layers and fully opaque applications, it provides a mostly matte finish with a soft sheen, polishable with a cloth to a satin sheen. Create stunning, durable designs with FX Design Color, your ultimate tool for artistic expression.

## FX DESIGN COLOR LIQUID

Experience the intense color of FX Design Color in a liquid form. Perfect for large, bright designs, it can be diluted with Thin & Fix Solution for a glaze or applied like lacquer with a sponge or brush. Blend, dab, or brush to your heart's content. The dried color can be reactivated or corrected with IPA.

Fully opaque, flexible, smudge-proof, and moisture-resistant, it's ideal for all your creative needs.

## THIN & FIX SOLUTION

Enhance and protect your FX Design Color with Thin & Fix Solution.

Use undiluted as a sealer to boost the stability of derma waxes and other delicate materials, adding a light, natural sheen. Thin & Fix Solution increases the high abrasion resistance of FX Design Color, similar to a clear lacquer. Apply it with any tool, for seamless, professional results that are durable and vibrant.

## FX REMOVER

FX Remover is your go-to solution for removing FX Design Color and all adhesives from the skin. This ultra-fine oil with minimal alcohol content effortlessly lifts materials off, leaving your skin clean and residue-free.

Its subtle scent and smooth, oily texture ensure an easy removal, even from large areas. Experience the convenience and efficiency of FX Remover for all your cleanup needs.
